

Supporting Community Groups

Fleet Town Council supports local community groups and events throughout the year to ensure that they may continue for the benefit of the residents of Fleet. This could be offering a peppercorn lease, free use of outside facilities or a financial grant.

During the current year, Fleet Town Council has once again supported the Fleet Link Bus Service by granting £14,500 to ensure that this dedicated community bus service continues in Fleet. Fleet Town Council has also again granted £18,300 to the Basingstoke Canal Society to contribute towards the general upkeep of the canal.

In addition to these annual awards, the Council is also able to award community grants. If your organisation would like to find out more, please contact info@fleet-tc.gov.uk for more information.

Peppercorn leases to local organisations is another way that the Council supports organisations. Currently, such leases are offered to:
