The Chairman reminded members of the expenditure which Council had approved on 1 November 2017 for various surveys in connection with the Harlington project. It was confirmed that competitive quotes had been obtained for all five surveys and the total cost had been contained within the approved sum..

Further to the recent pre-application advice from Hart District Council, it has been confirmed that the project is deemed a major planning application; a Transport Impact Assessment will therefore be required in addition to the surveys previously approved.

The survey will be required, in particular, to address parking as part of the development. This is in line with normal planning procedures.

**RESOLVED**

To approve further expenditure of up to £10,000 to commission necessary specialist surveys.
