

Tennis at Calthorpe Park - Play Tennis for £36 a year!

The Tennis Courts in Calthorpe Park have undergone refurbishing works in the past 2-3 months. With the opening of the Courts in August, the Council also launched a brand new offer whereby families are able to play Tennis Calthorpe Park for just £36 per year!

The £36 membership fee entitles your household to one key card that needs to be collected from our offices. Once you have your key card you can start making court reservations online (for which there will be no charge) and then use your key card to access the courts. You can play as many times as you like!

We hope that families will take advantage of this introductory offer to encourage children and youngsters to spend more time outside and be more active in their free time.

Says Paul Einchcomb, chair of Fleet Town Councils Recreation, Leisure and Activities (RLA) Committee

“The Town Council is working hard to increase sports participation in the local area for residents of all ages. Tennis is a sport that can be played from the time you start walking, throughout your whole life, with friends or family, for fun or competitively. We hope that this introductory offer will encourage local people to pick up their rackets and get down to the tennis courts in Calthorpe Park.”

To register for this exciting new offer, please visit our new Tennis website and set up an account. You can then pay the membership fee, collect your key and start playing!

www.calthorpeparktennis.com

The Council would like to again thank the Lawn Tennis Association as the resurfacing works were only made possible through their help and support having given the Council a grant for £43,000 and a new booking + access system worth approx. £10,000.

Pay to Play Tennis

If you only wish to play a game or two, or want to have a go before booking membership, we will be offering our usual Pay and Play Tennis which is charged at £6 per court per hour.
